FEES FOR MATURE AND AFFILIATED UNDERGRADUATE STUDENTS ENTRY 2017

Please note that this document is based on our understanding of current Government policy concerning the public funding available to students from BIS (the Department for Business, Innovations and Skills), the NHS and Student Finance England. Where applications are made for income assessed student support we assume a basic minimum award until the Student Support Notification is provided to the College. Note that students applying from, Scotland, Wales and Northern Ireland should check with their own statutory body (the Student Awards Agency for Scotland, Student Finance Wales, the Education and Library Board in Northern Ireland) for details of public funding for education.

1. UK AND EU STUDENTS

The university fee for the 2017-18 academic year will be £9,250 for students who:
do not have a first undergraduate degree; or
do have a first undergraduate degree and are commencing a second undergraduate degree in medicine, veterinary medicine or architecture.
The university fee for the 2017-18 academic year will be £9,771 for students who are studying for a second undergraduate degree in any other subject. These students will also be liable to pay a college fee of £6580 in 2017-18.

UK Students
Applications for maintenance loans and tuition fee loans to pay the university fee are made online at www.gov.uk/student-finance. Applications for 2017-18 should be open at the end of February 2017. Student Finance England offers a range of services including information and guidance, an online application process, online account maintenance, an enhanced on-line calculator, telephone support and special help for those with disabilities and particular needs. Parents and partners of continuing students will also be able to use the online service. See www.gov.uk/student-finance for contact information for students from Scotland, Wales and Northern Ireland.
Tuition fee loans are not means tested and will be paid direct from the Student Loans Company (part of Student Finance England) to the College. Tuition fee loans and maintenance loans are repayable when earnings reach £21,000 pa or more. If you are eligible for a tuition fee loan you will NOT be liable to pay the College fee.

EU Students
If you are from a European Union (EU) country outside of the UK, you may be eligible to apply for a tuition fee loan to pay the university fee. If you are eligible for a tuition fee loan you will NOT be liable to pay the college fee. You may also be eligible to apply for a loan for living costs if you meet certain residency conditions. Help may be available if you’re a migrant worker from an EEA country or Switzerland, or the child of a Swiss citizen or Turkish worker in the UK. For more information see: https://www.gov.uk/apply-online-for-student-finance

Documents required
UK/EU students should send a copy of their student finance notification to the Student Finance Officer as soon as they receive it.

If you are NOT eligible for a tuition fee loan, YOU will be responsible for paying both the University and College fees. Exceptions are UK/EU medical, veterinary and architecture students who will not be liable to pay the college fee.
Entitlement to financial support from Student Finance England may be affected by previous study on a course or courses of higher education. In general, attendance on full-time courses of higher education (HE) attended at publicly funded universities and colleges in the U.K or overseas (and at private colleges where fee support was provided from public funds) will be taken into account. Financial support for a course is generally the length of the course + 1 year – any year of previous study e.g. A student attended a degree course for one full year plus one day and then withdrew from the course. SFE will count this as two years previous study. If the new course of study is three years the formula is 3 +1 – 2 which will give eligibility of full support for the two final years of the course i.e. tuition fee loan and maintenance loan. The student will be eligible for a maintenance loan only in the first year of the course and will have to self-fund their tuition fees and other living costs.

UK AND EU STUDENTS WHO ALREADY HOLD AN HONOURS DEGREE FROM ANY COUNTRY
In general, applicants who hold an honours degree (by full-time, part-time including correspondence and distance learning) are ineligible for financial support from Student Finance England. UK students may be eligible for DSA and dependants related grants only. This means they are ineligible for fee and maintenance loans.

There are exceptions for certain degrees such as architecture, medicine and veterinary medicine where maintenance loans will be available to eligible students.

Cambridge Bursaries
The Student Loan Company will assess students for the Cambridge Bursary automatically when an application is made for a loan. SLC will also pay the bursary to students directly starting from October 2017. UK/EU students with a household income less than £42,620 are likely to be eligible for a Cambridge Bursary up to £3,500. A mature Cambridge Bursary will be at least £5,600 for mature students who were over 21 when they began their first degree and whose home is permanently in Cambridge. More information on Cambridge Bursaries can be found at https://www.admin.cam.ac.uk/univ/cambridgebursary/index.html

University and College Fees are reviewed annually and likely to increase by up to 5%.

Students will be billed by the College for the full annual amount of the fees at the beginning of each academic year. Payment of fees is required at the beginning of the Michaelmas Term, before a student can matriculate as a member of the University and the College. Overseas students, in particular, are requested to ensure that funds in Sterling will be available for fees by the due date. You are advised either to bring your fees with you in the form of a sterling Bank Draft or to allow at least one month for the transfer of funds from a personal bank to the College bank account: Lloyds TSB, Gonville Place, Cambridge. Sort Code 30-13-55, Account Number 00463811, and Account Name: Wolfson College Bursar’s No 1.
3. MAINTENANCE
In addition to fees, students in residence for the standard university term should allow at least £8,500 per year for maintenance (room rent, kitchen charges etc.), excluding travel to and from Cambridge and to your home. Those who wish to remain in residence through the vacations should allow at least £11,333 per year (UK and EU students including Medical and Veterinary students for their clinical years and the Graduate Course in Medicine).

Additional provision for accompanying dependants should be made in accordance at least with the following rates:

4. FUNDING
Wolfson College does not have any resources available for student support other than those available through advertised student scholarships. The College cannot meet any shortfall in your funding. You must, therefore, ensure that you have the funds to cover your course before you come to Cambridge.

5. MEDICAL STUDENTS from England, Northern Ireland, Wales, Scotland or the EU.
2017/18 information has not yet been confirmed -2016/17 information is shown here as a guide and will be updated with 2017/18 information as soon as it is available

In years 1-4 of the standard course English, Northern Irish, Scottish and EU are all eligible to apply for a tuition fee loan. Welsh students are eligible to receive a tuition fee loan of £3,900 and a tuition fee grant of up to £5,100. In years 5 & 6 of the standard course a tuition fee grant may be paid by the NHS to all home students. EU students starting their studies in 2017 should note that NHS tuition fee support arrangements have not yet been issued by the UK. Government.

In year 1 of the graduate course a tuition fee loan of £5,785 is available for English, Welsh and EU students who will need to self-fund the rest up to £9,250. Scottish and Northern Irish students need to self-fund the whole £9,250.

During years 2-4 of the graduate course students from England and Wales are eligible to apply for help from the NHS and their regional funding body towards tuition fees. Students from Northern Ireland and Scotland are required to self-fund the entire £9,250 of tuition fees. The arrangements for 2017 for EU students have not yet been confirmed by the government.
