# IT Matters

News & updates from the IT Office

Welcome to the *IT Matters* newsletter second issue. We aim to provide helpful information whilst bringing your attention to important changes.

## New College VPN (Alex Method)

We have been on working a new College VPN that we hope will provide you with a better experience when working remotely. If you are currently finding difficulty in connecting then we would welcome you to start using this new method. For more information and a guide on connecting please click the button below or visit <https://staff.wolfson.cam.ac.uk/it-information>

Between the three methods of connection we hope that in this difficult time you will be able to work remotely as seamlessly as possible.

*Please remember to check [the Staff IT Information page](#) for regular updates.*

Remote access Guide

## Accessing Emails from Home

You can access your emails via **Hermes** **webmail** using a web browser or by setting up a

client such as Outlook. Please **contact** us if you require any assistance.

## Microsoft Office 365

Office 365 is a set of cloud based versions of familiar Microsoft office products (Word, Excel, Outlook, etc).

If you would like to install Microsoft Office 365 on your home computer then please send us a request via the help desk stating your CRSid. This will enable us to grant you access.

Once enabled you can find instructions on how to install it

here: <https://help.uis.cam.ac.uk/service/collaboration/office365>

Please feel free to contact the help desk if you require any IT assistance at [helpdesk@wolfson.cam.ac.uk](mailto:helpdesk@wolfson.cam.ac.uk)
